# PROGRAMMING

In October 1960, Seven Arts released Volume 1. Today, we're up to Volume 10. But that doesn't mean that Volume 1 is old hat.

No sir. Not even to those stations which have taken 3, 4 or perhaps more runs with such titles as "A Star Is Born" and "Dial M For Murder."

Today, these same stations now are taking their first runs in color.

We've always contended that Seven Arts' "Films of the 50's and 60's" provide the highest commercial return possible for your feature film investment dollar.

Now we paint the picture for you in color.

Of 554 "Films of the 50's and 60's" now in release, Seven Arts presents over 50% (283) for prime time colorcasting.

With the Color TV Bandwagon rolling so fast, an open Volume in your market is a great buy right now.

# Description of Station Directory Section

## The Station Maps

The only official and uniform rough guide to a station's physical coverage is found in the files of the Federal Communications Commission. Each TV station grantee is required to submit to the Commission its coverage contours predicted on the basis of engineering formulas designated by the Commission. The FCC specifies three grades of service as a rough indication of the probable quality of reception.

The FCC does not intend or expect the predicted coverage contours, submitted by each station, to reflect whether a signal is received or not received at any specific location. Rather, the Commission regards the contours as a rough guide to probable reception. The basic use made by the Commission of the contours is as a tool to determine where to allocate channels to minimize interference among stations.

Though all stations and applicants are required to submit predicted contours to the FCC, stations may also file contours based on actual measurements of transmitted signals. Under FCC rules, such filings are not mandatory, and only a relatively few stations have offered such measurements voluntarily. The Commission has no official and uniform rules for measuring service contours; such submissions are associated with stations' files but are not given official status by the Commission.

The three grades of predicted contours required by the FCC are as follows:

**Grade B Service:** The quality of picture expected to be satisfactory to the median observer at least 90% of the time for at least 50% of the receiving locations within the contour, in the absence of interfering co-channel and adjacent-channel signals.

**Grade A Service:** Satisfactory service expected at least 90% of the time for at least 70% of the receiving locations.

**Principal City Service:** Satisfactory service expected at least 90% of the time for at least 90% of the receiving locations.

We obtained the predicted contour maps from the FCC files. We publish two contour lines, "Grade A" and "Grade B."

## ARB TELEVISION COVERAGE/65

Television circulation estimates are the basic research foundation of the industry and, in ARB Television Coverage/65, the American Research Bureau provides new and timely estimates to reflect the current impact of television in the United States. The dynamic growth of television and the changes which have taken place since ARB's last major coverage study in 1960 gave impetus to the new report.

Sampling in more than 3,000 counties during one to three Nationwide Sweep Surveys provided the framework for this report. More than a quarter-million family viewing diaries supplied the detailed viewing estimates.

*(Data from the American Research Bureau are fully protected by copyright. Reproduction in whole or part is prohibited without written permission from the American Research Bureau.)*

Net Weekly Circulation and Average Daily Circulation estimates are provided for all television stations which are reported in ARB television market reports. Also on each station page are SRDS Total Households and ARB's TV Homes and TV Penetration estimates for each county reported by ARB Television Coverage/65 for the individual station.

It should be noted that counties listed for individual stations include the home market ARB metro rating area plus all surrounding counties in which a station has 5% or more net weekly circulation.

## SURVEY METHODS

### As Described By ARB

ARB Television Coverage/65 measures two areas of established station audiences . . . the number of television-owning households and the intensity of viewing to each station received. Coverage studies provide broad-scale station circulation information by geographical areas as opposed to reports of program audience by station and time period.

Many industry studies, while providing useful estimates of television penetration and reception, have lagged behind in their attempts to define individual station circulation. Various techniques have been tried and found wanting. Respondents to post card ballots have been asked to recall how often they view a number of stations each week. While this technique may provide circulation data of limited validity, it is certainly far short of a record of family viewing.

ARB's approach to circulation, as in the 1960 Coverage Study, was to conduct nationwide all-county surveys, utilizing its well-accepted family viewing diary. As a result, all areas of television circulation have been greatly strengthened in both scope and validity with circulation based on hundreds of thousands of viewing records gathered from cooperating respondents throughout the nation.

## DEFINITIONS OF TERMS & CODES

### ARB Terms:

**Total Homes**—For purposes of ARB Television Coverage/65, the terms "Homes" and "Households" are considered interchangeable. A household or home is comprised of all persons who occupy a single dwelling unit, which may be a house, an apartment, or a group of one or more rooms. The total homes figures shown in the current study are Standard Rate and Data Service estimates as of May 1965 projected to January 1966.

**Television Homes**—A television home is an occupied dwelling unit having one or more television sets. Estimates for each county are based on an updating of ARB TV penetration estimates using historical regional growth

The Viking 'WEATHERAMA' is a revolutionary engineering design that fulfills the requirement for high-quality time and weather information service as provided in conjunction with video or RF television distributing systems. 'WEATHERAMA' offers 24 hours continuous television service of accurate time and weather information, displayed by precision-made and easy to read gauges.

- 10 station indexing (time, temperature, wind velocity, wind direction, barometer, rainfall, relative humidity, calendar, live and slide).
- Camera focuses on each of the ten gauges for a full period of 4.8 seconds with a refocusing time requirement for the next gauge of 1.2 seconds for a total of 6 seconds.
- No camera scanning.
- Carousel rotary slide projector (80 slide magazine).
- Equipment free of any rotating electrical connectors or cables.
- All stainless steel drive mechanism and high quality Bodine Drive Motor.
- All metal, high strength, compact construction.

*presented by*  
**UNITED PRESS INTERNATIONAL  
AND VIKING INDUSTRIES, INC.**

"NEWS-A-RAMA" is the new media of 24 hours continuous and instantaneous news coverage and service as reported and transmitted via United Press International (UPI) news wires from all points of the world and brought directly into the home of the CATV subscriber ... as the news is happening.

"NEWS-A-RAMA" provides a feature that appeals to every person in every walk of life:

- International, National, Regional and Local News.
- High School, College and Professional Sports Results.
- Stock Exchange, Industrial, Grain and Livestock Reports.
- Society and Entertainment Field Activities.
- Current Weather Reports and Forecasts.
- Local and Regional Bulletins.

Only "NEWS-A-RAMA" permits locally-produced news type to be run over the same news channel using the same UPI printer machine. "NEWS-A-RAMA" provides a new easy-to-read letter type set-up.

## Station Directory Description

curves to January 1966. This penetration percentage is then applied to SRDS total homes projections for estimates of total television homes. Mathematical differences may occur due to computer rounding to whole numerals from fractions of a percent.

**TV Penetration**—The percent of total homes having one or more television sets at the time of the survey.

**Net Weekly Circulation**—The estimated number of different television homes viewing a particular station at least once per week, Monday-Sunday, 6:00 AM-2:00 AM, EST.

**Average Daily Circulation**—The estimated average number of different television homes reached by a particular station on each day of the week, Monday-Sunday, 6:00 AM-2:00 AM, EST.

**Color Penetration**—Percentage of homes in market with color receivers.

### EXPLANATION OF FCC FILING SYMBOLS

#### FCC Filing Symbols:

1. **BPCT**: Broadcast Permit Commercial Television.
2. **BMPCT**: Broadcast Modification of Permit Commercial Television.
3. **DOC**: Docket. (Designation applied by FCC to hearing cases.)
4. **GRANTED**: Date of authorization by FCC.

Note: "BPCT" and "BMPCT" designations, accompanied by numbers, are affixed by the FCC to applications for new or changed station facilities to identify each when it is accepted for filing. They therefore constitute file numbers. Each map in the *Factbook* is accompanied with its file number to facilitate reference to the Commission's official files. In each case, the file number used is the one affixed to the application for facilities which were subsequently authorized by the FCC and in use at the time this *Factbook* was published. "Docket" numbers are used in those few cases where the application is in a hearing status and a file number hasn't been assigned. The "granted" date indicates when the FCC approved construction of facilities involved.

After a station is completed according to the terms of its construction permit, it receives a license; this is identified by a number with a "BLCT" (Broadcast License

## People on the way up read Television Digest\*

of thousands of industry executives  
For complete details see page 249-c

\*People on the way down didn't!

Commercial Television) prefix. When a license is renewed, a number with a "BRCT" (Broadcast Renewal Commercial Television) prefix is employed. Applications for licenses or license renewals do not include requests for changes in facilities, thus do not affect predicted Grade A & B contours. Therefore, they are not employed as references in the *Factbook*.

The Grade A & B contours on the maps are predicted by station engineers according to the formulas designated by the FCC, as previously explained. They are based on facilities in use by stations at the time of *Factbook* publication. Where a station has a construction permit for a change in facilities but has not completed the change, both existing and projected contours are shown—the latter by dotted broken lines.

### BUREAU OF BROADCAST MEASUREMENT SURVEY METHODS

The Bureau of Broadcast Measurement conducts National Surveys covering all of Canada except the Yukon and Northwest Territories.

These surveys are conducted by mail, a log being sent to each household in the sample in which the household is asked to record the tuning by all its members to radio and television over a week's time period, by one-quarter hours.

For the purpose of the survey, the whole of Canada is divided into 187 cells or BBM areas, which are either Metropolitan areas as defined by the Dominion Bureau of Statistics, or single counties or census divisions or combinations thereof.

The Survey provides figures on Television ownership in each BBM area and also, for each station, the weekly reach of the station in each cell. By weekly reach is meant the percent, or number of households that tuned to the station at least once during the survey week.

For any station, therefore, it is possible to arrange its audience reached weekly according to—

- (a) those BBM cells in which it reached over 50% of the households
- (b) those cells in which it reached 25-50% of the households and finally—
- (c) those cells in which it reached 5-24% of the households.

This, therefore, is the arrangement followed herein and opposite each BBM cell is shown also the estimated number of households in that cell, and the estimated number of Television households, together with a percentage expressing the Television households as a percent of total households in the cell.

In addition, a figure designated as "BBM Weekly Reach" is shown. This is the estimated total number of households that tuned to the station during the survey in all of its coverage area—i.e., in all the BBM cells into which its signal penetrated, including the cells in which its reach was less than 5%.

Watch for the "real live one" in '66.  
live color camera will be the star of the industry.  
Today, G.E.'s PE-24 is television's most accepted and  
and designed the first 4-vidicon color film camera—PE-24.  
This new live camera was developed by the same team which conceived  
newest and most advanced live color studio camera.  
In 1966 General Electric—the new leader in color  
television—will introduce broadcasting's

## G.E.'s New Live Color TV Camera

WESTINGHOUSE BROADCASTING COMPANY

**Will the  
movies that  
are here  
today be here  
tomorrow?**

Virtually all prime-time TV is now in color. Stations and sponsors want their feature films in color, too. So, shoot in color for greater impact in the theater today and for greater TV potential tomorrow. Shoot in color...you'll show a greater profit. For excellence in color, look to Eastman Kodak experience, always and immediately available through the Eastman sales and engineering representatives.

# In Columbia, Montgomery and Toledo

is a “People-to-People” program

3,379,600\* people in these three major market areas depend on Cosmos stations for news, information and entertainment. Each station is effective and influential in its respective community—well-manned with experienced, eager personnel who actively seek out the needs and desires of the audiences they serve — then fulfill those requirements. Average weekly audiences — both Nielsen and ARB — offer eloquent proof.

*\*Includes population in counties with 25% or more Net Weekly Circulation. (ARB Coverage Study/65) (Toledo ARB Coverage Study/60.) Population 1/1/65, SRDS.*

# Bell System Network Quality TV Channels

**Available to any user at reasonable charges**

For many years the Bell System has been the prime supplier of reliable, high-definition transmission service to the nation's television networks. This long experience, coupled with the latest and best in microwave and coaxial equipment, is available to non-network users in a variety of fields.

**Education:** ETV transmission facilities for both broadcast and closed circuit systems.

**Industry, Government, Professions:** For meetings, training, medical and scientific conferences, and

other business and professional applications of television.

**CATV:** Bell System multi-channel service geared to the needs of community antenna operators.

Bell System services are backed by Bell Telephone Laboratories research and development, and by the installation and maintenance experience of the Bell System Operating Companies. For further information, just call your Bell Telephone Business Office.

**Bell System**

**Every word and every note in every minute of broadcasting on every Storer station is taped. Quality control is one of the Storer Standards.**

LOS ANGELES KGBS	PHILADELPHIA WIBG	CLEVELAND WJW	NEW YORK WHN	TOLEDO WSPD	DETROIT WJBK
MIAMI WGBS	MILWAUKEE WITI-TV	CLEVELAND WJW-TV	ATLANTA WAGA-TV	TOLEDO WSPD-TV	DETROIT WJBK-TV

Taping the total daily output of every Storer station and checking it for quality at Storer headquarters is just one of the many ways Storer carries out its communications responsibility. The exacting standards adhered to by all Storer stations mean more worthwhile listening for the public and more successful selling for advertisers.

Storer Standards make every Storer station a great salesman.

## HOW DOES NBC COLOR THE NEWS?

Superbly.

On Nov. 15 "The Huntley-Brinkley Report" became network television's first weekday nighttime news program to be presented in color.

A few days later, the new "Scherer-MacNeil Report"—already distinguishing itself as network television's first half-hour Saturday evening news program—made a similar switch to color.

That's only part of the story. With "Today" and Sunday's "Frank McGee Report" also in color, NBC News now has brought color to *all* of its major, regularly scheduled network programs seven

days a week. What's more, at least 80 per cent of NBC News' planned *specials* this season will be colorcasts.

For over a decade, the NBC Television Network alone presented an expanding volume of color programming year after year. Now, as the Full Color Network,

NBC is far ahead of the field in color experience and facilities.

As broadcasting's leader in both color *and* news for so many seasons, it was eminently logical for NBC to add color to its responsible reporting, interpretation and analysis of the world around us.

It is, to be sure, a turbulent world that might be more cheerfully viewed through rose-colored glasses than the unsparring eye of the color camera. But NBC News has never shied from the realities; and that—in reality—is a major reason for its status as the most honored organization in broadcast journalism.

# NBC NEWS

QUALITY—DIVERSITY—POPULARITY... ALL THIS AND COLOR, TOO

## CAN COLOR BE A MOVING EXPERIENCE?

Certainly.

Particularly for the personnel manning an NBC color mobile unit. The talented staffs of these fully equipped "color studios on wheels" are forever travelling where the action is, so that NBC viewers can see television's best coverage of news and sports in exciting color.

The latest addition to NBC's color mobile fleet is an ultra-modern caravan of three 40-foot trailers and two supplementary trucks, and more units are coming as we cover more and more of the world of actuality.

Through the use of elaborate mobile color facilities, NBC News has

been able to provide outstanding coverage of such events as the visit of Pope Paul VI to New York and the Gemini launchings. In sports, our color equipment makes possible such colorcasts as weekly AFL contests; the Bowl games; the World Series, and baseball's game of the week.

With all of NBC's ma-

jor, regular news and most of our sports coverage now in color, our color mobile units are busier than ever. As the only fully manned, fully equipped color network, NBC takes such activity in stride.

The network's use of color in news, sports and virtually all prime-time programming is the logical outgrowth of NBC's color pioneering. Over the past decade, ours has been the only network to expand its color programming year after year. So it was only natural for NBC, last Fall, to become known as the Full Color Network. Don't you wish *all* the networks were?

## *If you had the Quality touch*

You'd enjoy the luxurious feeling of an Aladdin with an all-powerful lamp. You could wish for full color facilities to fulfill your fondest dreams of complete program, commercial and remote production. Presto! Almost as easily as rubbing a lamp, at your command would be eight live color cameras, two complete color film chains, six color videotape recorders. Get that Quality Touch of an Aladdin... Call our Operations Manager Jim Pratt or your Petryman for the colorful details.

RCA  
NEW  
LOOK

COLOR TV CAMERA • "LUMINANCE MAGIC" →

WorldRadioHistory

# Separate luminance channel ...like the black plate in full color printing magically sharpens the color

...adds the detail that gives snap to the picture

## NEW COLOR PROCESS

From its all-new operating principle to its all-new look, the TK-42 represents an entirely new concept in color camera performance. It adds a separate luminance channel to the red, green and blue (chrominance) channels, to supply high-quality monochrome information. This is like the black plate in 4-color printing, for giving finest detail, superior color pictures.

## NEW PICTURE PERFORMANCE

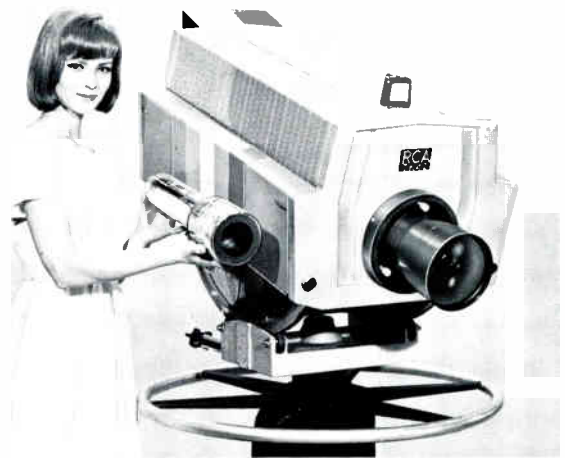

A big picture 4½-inch tube is used in the luminance channel. (It's the same tube used in RCA's deluxe TK-60 camera for superb monochrome reproduction.) Result: highest quality monochrome pictures and highest quality color pictures.

## NEW EASE OF OPERATION

Self-compensating circuits are used to avoid drift, permitting the camera to operate for long periods without adjustment. For ease of operation a zoom lens is built in, also a large 8-inch viewfinder and complete test facilities.

## THE CHOICE OF BROADCASTERS

New luminance principle proved by 5 years' intensive engineering, product research, and field testing. Several models have been demonstrated at three NAB Conventions. In 1962, Broadcasters registered their choices regarding the luminance principle, the built-in zoom lens, and other features—the present camera is the result.

*This is the 4-1/2 inch image orthicon tube used in the luminance channel to sharpen the picture.*

*Plug-in transistorized modules speed servicing, increase reliability.*

*Call your RCA Representative for the complete story. Or write RCA  
Broadcast and Television Equipment, Building 15-5, Camden, N.J.*

# Do your Viewers Switch Rather than fight?

## Yes!

You may be transmitting a powerful signal the likes of which no station has ever seen. But—look at it from the other end. Many sets within range of your signal may *not* be receiving it as crisply and clearly because of an inadequate antenna.

Bad pictures show it. Station surveys prove it: Old or obsolete receiving antennas wreak havoc on even the best signal. And "snow", ghosts are bad enough in black and white. In *color*—they're *murder!*

Could be the gain curve of an old or obsolete antenna is "sucking out" or "rolling off" *your* channel—while your competitor's channel blasts through (luckily) on a peak of the curve. Is it any wonder so many potential viewers would rather switch channels than fight these vexations?

Help your audience get sharper, more pleasurable TV reception and watch it grow in size and loyalty. We at JFD can assist you in achieving these objectives with "Operation Bootstrap". This unique program combines on-air time with intensive merchandising through local TV dealers, installers and distributors to promote and expand your market coverage with JFD antennas.

Not with any ordinary antenna mind you, but with JFD LPV Color Log Periodic—the patented space-age antenna discovery that has revolutionized reception of VHF, UHF, and FM/Stereo. Developed from research performed at the famous University of Illinois Antenna Research Laboratories, the Log Periodic is acknowledged as the most advanced configuration in the state of the antenna art. And only JFD has it—in a wide, versatile selection of performance-proved designs to satisfy every location—town or country—in vivid color or black and white.

Write or phone us for details on how "Operation Bootstrap" has helped increase audiences for other stations. LICENSED UNDER ONE OR MORE OF U.S. PATENTS 2,958,081; 2,985,879; 3,011,168; 3,108,280; 3,150,376; 3,210,767. RE. 25,740 AND ADDITIONAL PATENTS PENDING IN U.S.A. AND CANADA. PRODUCED BY JFD ELECTRONICS CORPORATION UNDER EXCLUSIVE LICENSE FROM THE UNIVERSITY OF ILLINOIS FOUNDATION.

Today's many worlds of music  
are the result of an opportunity provided  
by BMI for thousands of composers,  
writers and publishers to be heard,  
to be treated with dignity and respect,  
and to share  
in the economic rewards  
of their talents.

ALL THE WORLDS OF MUSIC FOR ALL OF TODAY'S AUDIENCE

BROADCAST MUSIC, INC.

# Television Market Rankings

Listing 230 markets according to ARB Net Weekly Circulation

With rank as to total homes and television households

Net Weekly Circulation information & rank are based on the Sept. 1965 ARB nationwide sweep survey.

Market	ARB Net Weekly Circulation	Rank	Total Homes	Rank	Television Households	Rank	Market Area Commercial TV Stations

## The Speaker of the House recognizes Television Age

We don't want to make a whole Federal case out of this but you might like to know that television's most readable, reputable and repeatable publication even gets quoted in Congress. In fact, recently we held the floor on two separate occasions for the television industry. The point is that whenever important people need a television authority—it's the most natural thing in the world to reach for Television Age. It happens in Con-

gress. It happens with remarkable consistency in Reader's Digest where our stories are reprinted for the benefit of tens of millions. Most important—it always happens throughout the television industry where Television Age is read more . . . quoted more . . . used more. That's why Television Age helps you reach more of the people you want to reach, the way you want to reach them—with authority. You can quote us on it.

TELEVISION AGE Meets The Needs Of The People Who Spend Over \$1,000,000,000 In Television Annually

1966 Edition

**One of America's shrewdest economists was getting a little concerned about our**

Jack Benny, star of stage, screen, radio and TV, and bulwark of the American dollar.

**country's money problems. So he wrote this post card to the Secretary of Commerce.**

Dear Secretary Connor,  
 I've been hearing so much about America's balance-of-payments deficit and our outflow of dollars that, naturally, I got concerned.  
 First of all does "balance-of-payments deficit" mean we owe other countries money? If so, how did we ever get into a situation like that? And can't we just owe it to them? Everybody knows we're good for the money. So why should we have to pay it?  
 Secondly, even if they ask for their money why do we have to give it to them in gold? Won't ordinary American dollars do?  
 Last but not least, I was wondering if there was any reason for me, personally, to be concerned? Not that I have that much money. But over the years I've managed to hold on to a few dollars. Paper dollars, that is. Do you think they'll remain as good as gold?  
 Sincerely,

*Jack Benny*

**This was the reply Mr. Benny got from the Secretary of Commerce.**

THE SECRETARY OF COMMERCE  
 WASHINGTON 25, D.C.

Dear Mr. Benny:

We appreciate your interest in America's balance-of-payments deficit. It is a serious problem, but one we have every confidence of solving with the help of American businessmen and bankers and the understanding of the American people.

To answer your questions: "Balance-of-payments deficit" means more dollars are going out of this country than are coming in. We got into this situation by spending more abroad, over the short term, than we receive from abroad.

For example, American business is expanding overseas, using American dollars to build factories and office buildings for future economic growth. Our military bases abroad and our economic assistance to developing countries take dollars...much more than the dollars we get back, for instance, for the goods we export. As a result, our "outgo" is greater than our income. So, we have a balance-of-payments deficit.

When foreign countries ask to redeem their dollars in gold, we must give it to them because this country is pledged to exchange dollars for gold upon demand. The strength and stability of the dollar and to a great extent, the strength and stability of all the world's currency, depend on our fulfilling that pledge.

Finally, Mr. Benny, you certainly need not be concerned about your personal finances. The dollar is as good as gold. It is backed up by the world's most productive and efficient economy that gets more productive and more efficient every year. In addition, our government, businessmen, bankers, and military are all working together to solve the balance-of-payments problem. And it will be solved.

As President Lyndon Johnson has said, "Those who fear for the dollar are needlessly afraid. We will eliminate our international deficit. We will maintain the dollar at full value."

For the full story on our balance-of-payments situation and what we are doing about it, I am enclosing a booklet, "Keeping the American Dollar Strong." If any of your friends would like a free copy just ask them to write to: "Good as Gold," U.S. Department of Commerce, Washington, D.C. 20230. A postcard will do.

Sincerely,

*John T. Connor*  
 John T. Connor  
 Secretary of Commerce

**Network Television Billings: 1949-57\***  
(PIB Reports)

Year	ABC	CBS	DuMont	NBC	Total
1949	\$ 1,391,991	\$ 3,446,893	\$ 955,525	\$ 6,500,104	\$ 12,294,513
1950	6,628,662	12,964,531	↑	21,185,692	40,778,885
1951	18,585,911	42,470,844	7,761,506	59,171,452	127,989,713
1952	18,353,003	69,058,548	10,140,656	83,242,573	180,794,780
1953	21,110,680	97,466,809	12,374,360	96,658,551	227,610,400
1954	34,713,098	146,222,660	13,143,919	126,074,597	320,154,274
1955	51,393,434	189,018,121	3,102,708††	163,384,796	406,899,059
1956	76,726,129	223,520,382		187,921,123	488,167,634
1957	83,071,284	239,284,899		193,845,383	516,201,566

\* Note: These figures do not represent actual revenues to the networks, which do not divulge their actual net dollar incomes. They're compiled by Publishers' Information Bureau on basis of one-time network rates, or before frequency or cash discounts, so in terms of dollars actually paid may be inflated by as much as 25%. The 1952 figures also do not include revenues from July national political conventions. PIB began compiling TV figures in 1949, discontinued monthly reports as of Jan. 1, 1958.

† Not available, but DuMont reported total 1950 network revenue as \$4,500,000.

†† Effective Sept. 15, 1955, DuMont (now Metropolitan Broadcasting) changed from a national network to a local operation.

**Network Television Billings: 1958-65\***  
(TvB Reports)

Year	ABC	CBS	NBC	Total
1958	\$103,016,938	\$247,782,734	\$215,790,729	\$566,590,401
1959	125,313,746	266,339,064	235,290,937	644,942,747
1960	158,591,010	274,139,783	249,640,296	682,371,089
1961	190,615,140	280,599,084	277,659,284	748,873,488
1962	205,224,342	311,709,771	281,874,025	798,808,138
1963	214,593,600	325,609,900	292,533,300	832,736,800

# **CATV**

# **and Microwave**

# **Addenda Service**

**PROVIDES:**

New CATV's in Operation  
New Franchises Granted by City Councils  
New Applications for Franchises  
Applications for CATV & Station Microwaves  
Construction Permits for CATV & Station Microwaves

**This complete information is published by no other source.  
It up-dates weekly the information provided in the  
CATV Directory in Television Factbook.**

*The Addenda Service is part of our Full Television Service.  
For \$125 per year (\$105 each per year if you order 5 or more  
subscriptions), you will receive:*

The Weekly Television Digest

The Weekly CATV Addenda Service (pink) as described above,  
and the Weekly Television Station Addenda Service (blue).

Our new 66" x 44" executive wall map of CATV Systems  
and TV Stations. (Sells separately for \$12.50).

The next edition of Television Factbook. (sells separately at \$19.50).

A handsome, embossed binder to file your copies of  
Television Digest and the Addenda.

*Use the handy order card inside the back cover of the Factbook*

1965*	605,603,209	379,999,348

Note: 1965 figures are preliminary.

\* Does not include Field Effect transistors and Dual transistors.

# Why should you care about Mrs. Brennan?

Chances are you don't even know Mrs. Brennan. She's rather an everyday housewife. Shops. Scrubs floors. Makes peanut butter sandwiches for three kids. On occasion, she's even been known to stand up and speak her piece at PTA meetings. Mrs. Brennan's an everyday housewife, *but not an ordinary woman*. She accomplishes what she sets out to do with a vital dedication and enthusiasm.

That's what makes her important to ARB . . . and to you.

You see, Mrs. Brennan is an ARB interviewer, one of hundreds in communities all over the country. She's close to her community and its people. She works *in* her community. If you think she makes a mean peanut butter sandwich, you should hear her gain the cooperation of selected sample families and note her pleasant, courteous follow-up calls. She's a real professional.

So you really should care about Mrs. Brennan. And, someday when you are pondering an ARB audience measurement report, remember her. We do. And it sure makes us feel a lot more confident.

Betteridge, area sales mgr., Chicago; H. M. Williams, Jr., area sales mgr., Kansas City; C. R. Deyo, asst. v.p., public relations; J. W. Cannon, publications mgr.; G. E. Ashley, general attorney; C. F. Martin & J. W. Grady, Jr., asst. general attorneys.

**ALL SELLING  
IS SPOT SELLING**

*We are in business to help you match your  
radio and television advertising to your sell-  
ing opportunities...market by market.*

*Just tell a PGW Colonel what you want  
and when you want it. He will take care of  
it. A heavy schedule here—a light schedule  
there. Early season in one place—late in  
another. That is good advertising...spot  
advertising...the advertising that makes  
good selling.*

## Isabel Brown turns them down

We have a long list of volunteers eager to become a part of the American Research Bureau's sampling activities. People write to us regularly requesting that they be included in our audience surveys, eager to cast their "vote." But Isabel Brown turns them down.

As Field Staff Director, she knows that good sampling requires using only those people who are *selected* during the due course of ARB's procedures . . . the idea being that everyone in the defined universe is given an equal opportunity for selection. This is the critical criterion. We don't have to ask everybody, but once we do make a selection we are particularly concerned that those people, and those alone, participate.

For those over-eager volunteers, we have to make a friendly policy. *Don't call us, we'll call you . . . maybe.* It just has to be that way to keep ARB audience reports as good as they are.

# Networks Rates and Data

## CBS Network Data—(Continued)

### CBS TELEVISION NETWORK RATES

(Rate Card 16—Subject to Change)

(Consult Network for Discounts, Specifications, etc.)

The CBS Television Network, as a national advertising medium, solicits those orders which will provide the largest nationwide circulation, the best program quality most suitable for a given time period, and which will leave no substantial portion of the nation without network service. While no minimum line-up of stations is required, the CBS Television Network, in determining whether to accept a particular order, will consider the foregoing objectives. In the case of a participating or co-sponsored program, such consideration will include the station line-ups carrying the program or ordered by other sponsors.

Class A (6-11 p.m., Sunday through Saturday) gross rates per hour are listed under Station Time Rates, Class C (sign on to 6 p.m., 11 p.m. to sign off, Sunday through Saturday) gross rates are 50% of Class A.

### U.S. NETWORK 193 STATIONS

# Why not export?

# It could double your business.\* And we'll help you get started.

What's in it for us? Only that the more this country exports, the better we'll be able to reduce our balance-of-payments deficit. For really helpful information on world markets and how to break into them, just pick up the phone and call your local office of the U.S. Department of Commerce.

\*It happened to one of America's largest chemical companies. And there are dozens of others—large and small—that have been just as successful abroad. Case histories on request from U.S. Dept. of Commerce, Washington, D.C.

Published as a public service in co-operation with The Advertising Council and the Department of Commerce.

# NATIONAL BROADCASTING CO.

## HOW DOES NBC COLOR THE NEWS?

Superbly.

On Nov. 15 "The Huntley-Brinkley Report" became network television's first weekday nighttime news program to be presented in color.

A few days later, the new "Scherer-MacNeil Report"—already distinguishing itself as network television's first half-hour Saturday evening news program—made a similar switch to color.

That's only part of the story. With "Today" and Sunday's "Frank McGee Report" also in color, NBC News now has brought color to *all* of its major, regularly scheduled network programs seven

days a week. What's more, at least 80 per cent of NBC News' planned *specials* this season will be colorcasts.

For over a decade, the NBC Television Network alone presented an expanding volume of color programming year after year. Now, as the Full Color Network,

NBC is far ahead of the field in color experience and facilities.

As broadcasting's leader in both color *and* news for so many seasons, it was eminently logical for NBC to add color to its responsible reporting, interpretation and analysis of the world around us.

It is, to be sure, a turbulent world that might be more cheerfully viewed through rose-colored glasses than the unsparring eye of the color camera. But NBC News has never shied from the realities; and that—in reality—is a major reason for its status as the most honored organization in broadcast journalism.

## NBC-TV NETWORK RATES

Effective May 31, 1966

(Consult Network for Discounts, Specifications, etc.)

In order to serve the public interest in having NBC television programs available on a national basis and to maintain the network function as an effective national advertising medium, orders for NBC-TV Network facilities are subject to acceptability of the station line-up ordered.

Consistent with the foregoing objectives, a station line-up order shall be deemed acceptable if the Class A hourly rates of the stations ordered total \$110,000 or more. Recognizing the interests of national advertisers with unusual marketing requirements, NBC will consider for individual approval orders for station line-ups which do not meet the hourly rate totals specified.

In connection with administering orders for participating or multi-sponsored programs, NBC may designate for each such program individually the basis of station order acceptability.

Gross Rates follow (applicable to 6-11 p.m., Mon.-Sun.). One-half gross rates apply to 5-6 p.m. & 11 p.m.-1 a.m. Mon. thru Sun.; 4-5 p.m. Sat. & Sun. All other times, 35% of Gross Rates. Note: Rates following are to be used only as an estimate of cost, subject to change.

††C—operates on Eastern time.

# CANADIAN BROADCASTING CORP.

## Television Network

Executive Offices: CBC Building, 1500 Bronson Ave., Ottawa, Ont. Telephone: 731-3111. Telex: 01-3260. P.O. Box 478, Terminal A.

Business Offices and Studios: Ontario & English Networks Division: 354 Jarvis St., Toronto, Ont. Telephone: Walnut 5-3311. Telex: 02255. P.O. Box 500, Quebec & French Network Division: 1425 Dorchester St. W., Montreal, P.Q. Telephone: 868-3211. Telex: 01-2288. P.O. Box 6000. (TV studios also in Ottawa, Halifax, Winnipeg & Vancouver; Edmonton, Alberta; Cornerbrook & St. John's Newfoundland, and Moncton, New Brunswick).

Corporate structure: The Canadian Broadcasting Corp. is a publicly-owned corporation chartered by Parliament with carrying on a national broadcasting service in Canada. It is directly responsible to Parliament and is financed by an annual Parliamentary appropriation, supplemented by revenue from advertising.

CBC national programming is fed out over 456 transmitters of AM, FM & short wave radio & VHF television. Of these, 195 are TV stations and their satellites, including 149 which are privately-owned and 46 maintained by the CBC. Because of the bicultural nature of the country, broadcast services are provided in English and French. There is one English-language TV network and one radio network; in the French-language, there is one TV and one radio network. There is also a service to Arctic communities, with 6 northern radio stations and short-wave broadcasts. The program services of the two national radio networks are received by 261 transmitters, which can broadcast to 98 per cent of Canadians. This is achieved by means of 42 stations and 133 low power relay transmitters of the CBC, and 86 privately-owned stations. This is a unique feature of the Canadian system, that privately-owned radio and television stations are affiliated with the publicly-owned body and assist in the vital task of distributing national program service.

### CBC DIRECTORS

J. Alphonse Oulmet, *president*; W.E.S. Briggs, *vice president*; F. L. Jenkins, *London, Ont.*; David M. MacAulay, *Sackville, N.B.*; T. W. L. MacDermot, *Lennoxville, Que.*; E. B. Osler, *Winnipeg, Man.*; Dr. S. Potoski, *Yorkton, Sask.*; Dr. Andre Raynaud, *Montreal, Que.*; Roger N. Seguin, *Ottawa, Ont.*; J. G. Prentice, *Vancouver, B.C.*; Dr. J. M. R. Beveridge, *Wolfville, N.S.*

# U. S. Television Station Directory

Data Updated to Feb. 1, 1966

Includes Rate Digests, Personnel,  
Facilities and Other Data

CP Holders Reported Due by  
Spring Are Listed

In each ranking on the state pages—net weekly circulation,  
total homes, total TV homes—the figure is that of the  
station in the market with the highest total in each category.

## EXPLANATORY NOTES

Rates, personnel and other data supplied by stations. STA means  
Special Temporary Authorization pending license.

**RATE DIGESTS:** These show only the highest one-time rate charged  
by the stations. Most of the minute-or-less rates quoted apply to  
films or slides only. Most rates are also subject to frequency dis-  
counts, separate or additional rehearsal charges, talent & pro-  
duction charges, etc. For further details and for contract condi-  
tions, specifications etc., consult complete station rate cards,  
available from the stations on request.

**STATION POWER:** Powers shown are Effective Radiated Powers  
(ERP).

**NETWORK SYMBOLS** (registered trademarks)     
indicate ABC, CBS and NBC TV network affiliation. When a  
station has two or more affiliations, networks, symbols are shown  
in alphabetical order.

**SYMBOL**  indicates station is a subscriber to the NAB  
Television Code.

For an explanation of the state maps and station listings, with  
contour maps and ARB data, turn to next page.

# THE FACTBOOK: An Explanation of Map Symbols and Figures

## THE STATION PAGES

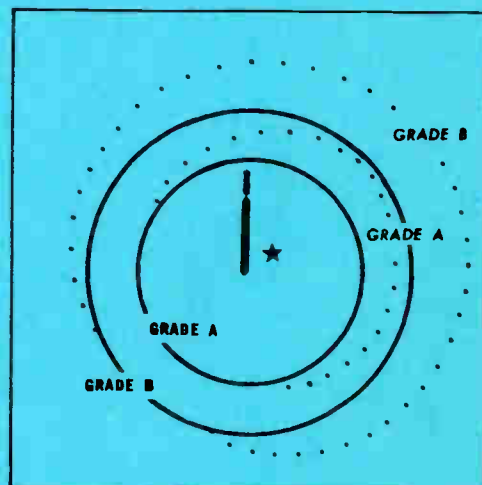

ARB Net Weekly Circulation levels are shown in the tables and in the predicted contour maps, for each county, by shading of all counties over 5%. "Per" heading on the last column of ARB figures means "per cent."

The individual station tables show a complete listing of all counties grouped by ARB Net Weekly Circulation levels, with Total Households, TV Homes, and TV Penetration in each county individually. For definitions of ARB terms see Introduction starting on page 2-a.

Our "station total" figure does not include circulation in counties in which the station's net weekly circulation was less than 5%. The complete ARB study does present these figures to ARB clients.

Satellite stations are shown in a dash line pattern in relation to the parent listing. In the satellite listing the parent station is shown in the dash line pattern.

Where a station has a construction permit for a change in facilities and has set a target date, but has not completed construction, both existing and projected contours are shown—the latter by dotted lines.

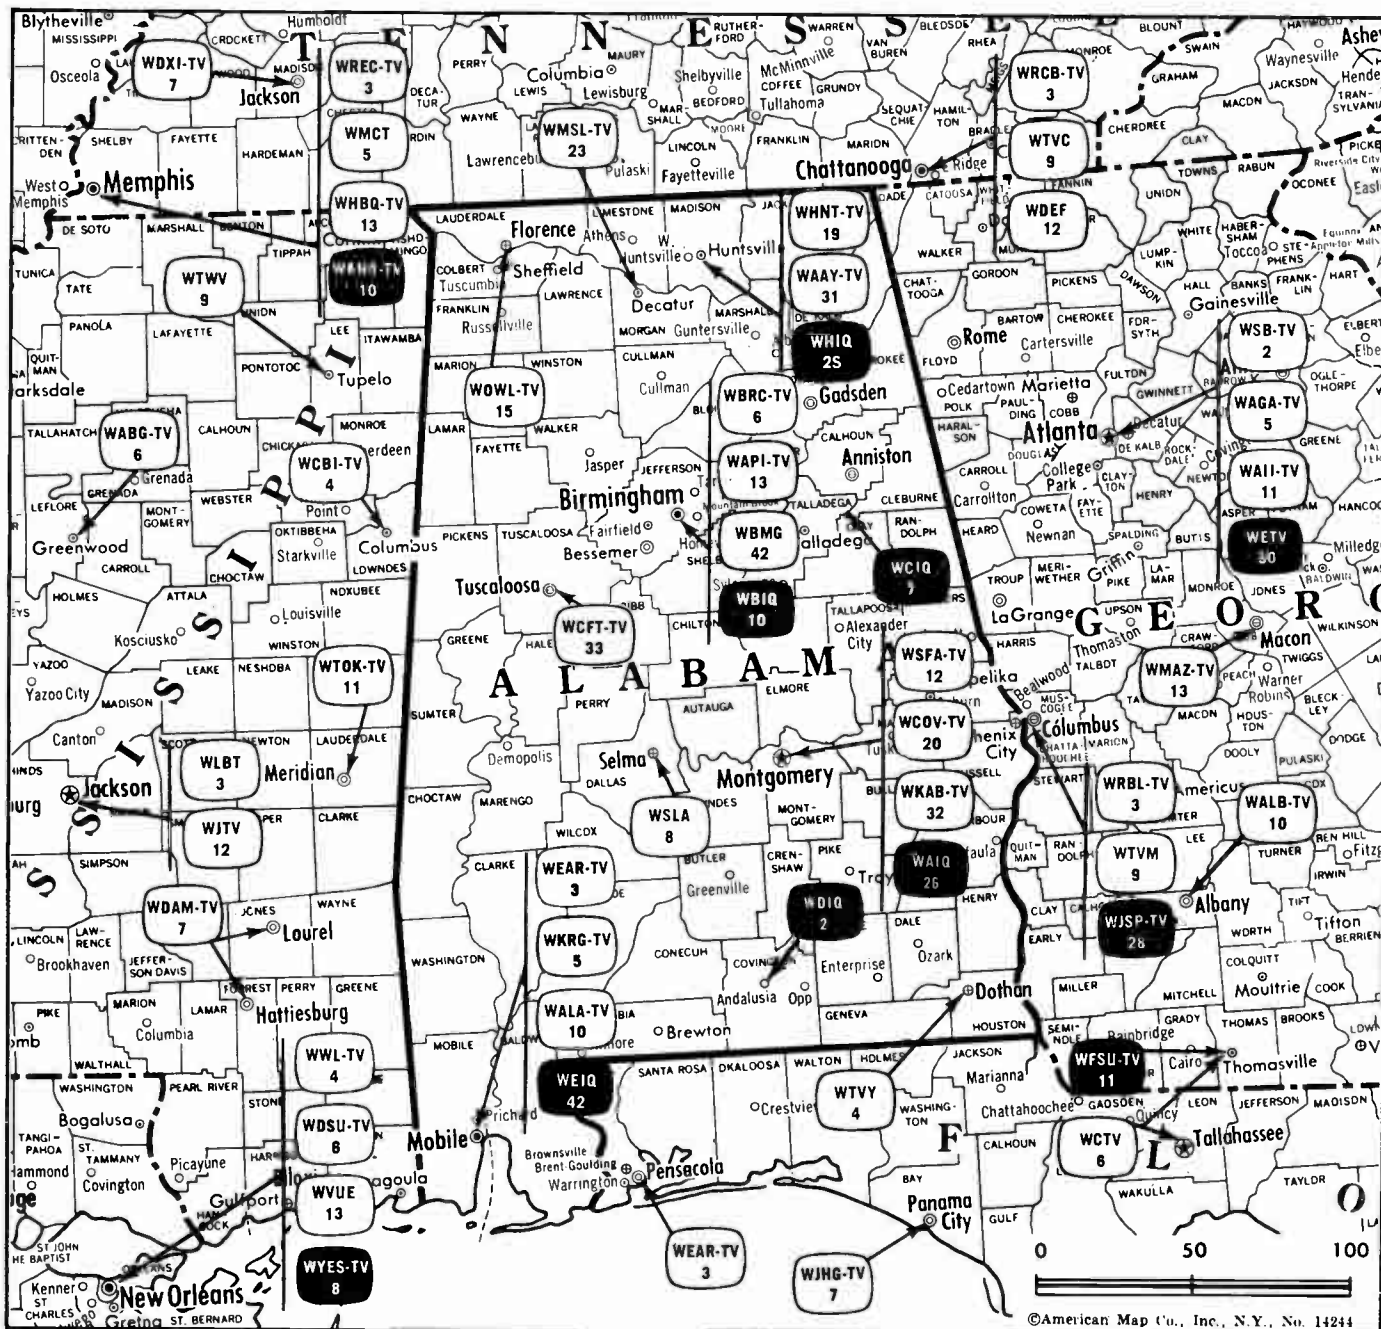

## THE STATE PAGES

Under the map of each state, three rankings for each market are shown: American Research Bureau's Net Weekly Circulation, Total Homes, Total TV Homes. In each ranking, the figure is that of the station in the market with the highest total in each category.

Technical facilities listings for all educational stations within each state are found on the page following each state map.

The state pages also carry additional cross-reference material, indicating for example, those stations within the state that are identified with two or more cities, or with cities in another state.

Licensed commercial and educational TV stations by VHF and UHF are shown for each state in a status report as of Feb. 1, 1966.

Market	ARB Net Weekly Circulation	Rank	Total Homes	Rank	TV Households	Rank

# Why not export?

# It could double your business.\* And we'll help you get started.

What's in it for us? Only that the more this country exports, the better we'll be able to reduce our balance-of-payments deficit. For really helpful information on world markets and how to break into them, just pick up the phone and call your local office of the U.S. Department of Commerce.

\*It happened to one of America's largest chemical companies. And there are dozens of others—large and small—that have been just as successful abroad. Case histories on request from U.S. Dept. of Commerce, Washington, D.C.

Published as a public service in co-operation with The Advertising Council and the Department of Commerce.

# "Gentlemen ...it's time to bring home the bacon."

Almost any company that's been doing business abroad has been doing well. That's good for you, your company and world business in general. But right now, your country needs those profit dollars to help reduce our balance-of-payments deficit. You can help by bringing home as much of that income earned abroad as you possibly can. Why not put the wheels in motion today? It'll give you a good feeling.

Published as a public service in co-operation with The Advertising Council and the Department of Commerce.

## "San Franciscans" catch their favorite sports on KTVU

Sporting blood starts young and runs high in the San Francisco-Oakland market. And 4,000,000 fans get plenty of *live*, direct coverage exclusively on KTVU. Giants Baseball, Warriors Basketball, Seals Ice Hockey, College Basketball to name a few. That's why their first choice in sports viewing is KTVU, the Nation's LEADING Independent Television Station.

# Sell the million-plus people of the Denver area with the tested sales power of KLZ-TV!

## Denver—hub of the nation's ideal test market...

Metropolitan Denver—now with a million-plus people in its thriving five-county area.

A sales island—more than 500 miles away from any other major market. No overlapping TV signals and sparse outside radio activity. Stable, sound economy bulwarked by an abundant year-around civil service payroll.

Active, competitive grocery and drug store operators—assuring maximum sales and merchandising support.

## KLZ-TV—the proved way to sell the Denver area...

KLZ-TV is a long established audience leader. National time buyers have long recognized the selling power of this station.

One of the nation's most honored TV stations. Vital public service programming stamped with an unusually high degree of interest and involvement in community affairs.

Exciting local programming to join with CBS-TV's all-star line-up. Unquestioned area news leadership. Imaginative sales promotion to spark enthusiasm at the retail level.

Area's best-known and best-liked air personalities according to numerous quantitative and qualitative studies.

Key management personnel identified as community leaders—to assist in high level contact work.

**Put KLZ-TV to the test—in the Denver market!**

## She can't come to you for the truth, but you can reach her.

The truth can become a very precious thing to a young mind in a closed country:

"Dear Friends,

I began listening to your broadcasts when I was a small child.

Today I am 22.

And for most of what I know about the world, I have to thank Radio Free Europe."

The young woman who wrote that letter lived in Communist-ruled Czechoslovakia.

Ten years ago, she thought the world ended with that ugly barbed wire fence.

Today she knows different. And what's more important, she knows who built it.

There are 82 million people like her living within the Iron Curtain countries of Czechoslovakia, Rumania, Bulgaria, Poland and Hungary. And more of them listen to Radio Free Europe than ever before.

The news, not only of their own country, but of the outside world, is broadcast without bias or distortion and in their own language.

Radio Free Europe is on the air up to

19 hours every day.

The one-time Communist monopoly of information in Eastern Europe has been broken.

The truth is getting through, helping millions work toward their freedom.

And with that as a goal, a great many people have a great many more reasons to go on living.

**Give to Radio Free Europe  
Box 1966, Mt. Vernon, N.Y.**

# What's an education good for anyway?

Just a lot of practical things . . . like a good job, a good salary, and a better share of the good things in life. You wouldn't want to do without any of them. But you may be forced to . . . *if* you settle for less than a good education.

Don't kid yourself. A good education isn't a luxury today. It's an absolute necessity. With most employers, a good education is the *first*

requirement for a good job . . . a good *paying* job . . . a job with a good future.

So, if you're in school now . . . stay there! Learn all you can for as long as you can. If you're out of school, you can still get plenty of valuable training outside the classroom. Find out about it. Visit the Youth Counsellor at your State Employment Service.

**To get a good job, get a good education**

Published as a public service in cooperation with The Advertising Council.

# WAGA-TV

moves in... and the new era

# BEGINS!

THE NEW ERA of television leadership has begun in Atlanta! Here, in America's 23rd market, WAGA-TV has moved into its new offices and studios — one of the best equipped in the industry!

It's a new landmark in Dixie — the Television Center of the South! Now . . . the transmitter, 1100' tower and studios are all at the same location, 1551 Briarcliff Road . . . a beautifully wooded 28 acre site on Atlanta's near north side. The building contains 52,000 square feet, which includes two studios with combined space measuring 7,336 square feet. • An additional service to advertisers is a WAGA-TV production unit with separate staff, studio and engineering facilities, which will produce Color VTR commercials for regional and national clients.

**Atlanta needs this modern new center!** Market growth rushes forward here in all economic categories! It's the nation's 11th wholesale center . . . 1st in per capita retail sales among central U.S. cities with metro area of one million or more\* . . . 4th in air passenger departures! It's a dynamic young market — average age about 28; it's rich — per household income exceeds \$7,600 a year; over 4,000 national firms have offices here, and almost 4 million people live within 100 miles of the metro area!\*

*This  
is  
Atlanta!*

**SOARING SALES!** Richard Rich, chairman of the board of Rich's, Atlanta's largest department store, was interviewed recently for an article in U. S. News and World Report, citing Atlanta as "one of the hottest towns in the U. S. today". A booming economy, negligible unemployment, thriving industry all contribute to the fantastic sales picture. Get your share of \$1,780,843,000\* in retail sales over WSB-TV.

# To get a good job, get a good education

Jobs demand it. Employers insist on it. So you'd better plan on having what it *really* takes to get the kind of job you want.

Today, there's no fooling about schooling. You honestly need a good education to get a good job . . . a good *paying* job . . . a job with a good future.

So, if you're in school now . . . stay there! Learn all you can for as long as you can. If you're out of school, there are plenty of ways to get valuable training outside the classroom. For details, visit the Youth Counsellor at your State Employment Service. Get a good education . . . you can't get ahead without one.

Published as a public service  
in cooperation with The Advertising Council.

# The college contribution

is a two-way street

There are two ways to look at it.

There's the contribution the colleges make to business.

That's crucial.

Business employs about 42% of all college people. It uses their brainpower and skill in developing new products and methods. It fills management posts.

In the other direction, there's the contribution business makes to colleges.

The colleges welcome it. They need all the funds they can get. They're helping to prepare leaders for management, but the cost of education is going up.

In fact many colleges are having to turn away applicants—100,000 a year, says one estimate.

If business wants college talent, it must keep colleges in business. It can help finance their need for classrooms, facilities and especially teachers.

In this light, your aid-to-education program is an aid to your company.

SPECIAL TO CORPORATE OFFICERS—A new booklet of particular interest if your company has not yet established an aid-to-education program. Write for:

"How to Aid Education—and Yourself"  
Box 36, Times Square Station

COLOR PENETRATION PERCENTAGE (NOV 65)			7

# WMT-TV has more hours of viewing per week than our two competitors combined:<sup>1</sup>

Station X	1,782,700
Station Y	2,336,400
	<u>4,119,100</u>
WMT-TV	4,478,700

## WMT-TV has over 2 million more viewer hours per week than either Station X or Station Y. (See above.)

Not only do more homes view WMT-TV than either of the other two stations in every day-part, but also each viewing home views more hours:<sup>1</sup>

	Total Week		
	TV Homes Viewing	Total Hrs. Viewed	Ave. Hrs. Viewed
Station X	199,200	1,782,700	8.9
Station Y	225,300	2,336,400	10.4
WMT-TV	258,300	4,478,700	17.3

- In "households" WMT-TV is **NUMBER ONE** in all measured time periods (9 a.m. to midnight) Sunday through Saturday.<sup>2</sup>
- Of the ten top daytime shows, WMT-TV has nine. Ratings range from 21 to 15; high on households is 51,000-34,000.<sup>2</sup>
- Forty-three of the top 50 nighttime breaks (6 P.M.-10 P.M.) measured by households are on WMT-TV (93,000-58,000).<sup>2</sup>
- Eighty-two of the top 100 daytime breaks (sign-on to 6 P.M.) measured by households are on WMT-TV (47,000-24,000).<sup>2</sup>
- Thirty-four of the top 40 nighttime shows (ranked by homes reached) are on WMT-TV.<sup>2</sup>

The Eastern Iowa area, dominated by WMT-TV, includes Cedar Rapids, Iowa City, Waterloo and Dubuque—four of Iowa's eight largest population centers. The Eastern Iowa area constitutes 60% of Iowa's population and purchasing power. WMT-TV is one of the "big stick" operators (tower 1,450' above average terrain; Channel 2; 100,000 watts) which are re-shaping the strategy of new mass-marketing campaigns.

If you want the most total circulation, plus the most circulation in the area's major markets, on the **NUMBER ONE** station—you want WMT-TV.

# COUNTRY STORE *Kansas Style*

The **largest** independent grocery distributor in the country is now 600 stores **BIGGER!** Topeka is headquarters for The Fleming Company and the "nerve center" for this \$800,000,000 operation that serves 1500 supermarkets in 11 states. Fleming's computerized inventory system measures caselot movement of product from 1,850,000 sq. ft. of warehousing. Advertising effectiveness and consumer acceptance of product is measured and analyzed **here!**

WIBW Television and Radio, like Fleming, regard "Success as a journey—not a destination." Our services are dedicated to building better distribution and increased sales for your products in Kansas.

As a single-station television market, WIBW-TV is dominant in central and eastern Kansas. WIBW Radio, at 580 on the dial, is the dominant "Voice of Kansas" serving this progressive state. Ask Avery-Knodel to show you how we do it! Or call 913—CRestwood 2-3456.

## WVUE

Grantee (STA): Screen Gems Broadcasting of Louisiana Inc., 1418 Cleveland Ave., New Orleans, La. (70112).

Telephone: 504-525-9011.

Ownership: Screen Gems, 100%. For other interests see KCPX-TV, Salt Lake City.

Began Operation: On Dec. 17, 1958, FCC granted permission to operate on Ch. 13, and on Jan. 28, 1959 FCC granted STA for temporary Ch. 13 operation by New Orleans Television Corp. (Television Digest, Vols. 14:51; 15:5). Supreme Bcstg. Co. started operations on Ch. 20 on Nov. 1, 1953, using WJMR-TV call letters. In Oct. 1957, WJMR-TV began experimental operation on Ch. 12 but FCC ruled in 1958 that this operation was to close by Jan. 1, 1959 but WVUE did not begin on Ch. 12 until Sept. 1, 1962. Sale of 60% by New Orleans Television Inc. (Joseph A. Paretti and associates) to Screen Gems and contingent transfer by Rust Craft of its 40% to Screen Gems approved June 2, 1965 by FCC (Vol. 5:8, 23).

Represented (sales) by Edward Petry & Co. Inc.

Represented (legal) by Fletcher, Heald, Rowell, Kenehan & Hildreth.

Personnel:

NORMAN LOUVAU, executive vice president.  
DOUGLAS J. ELLESON, vice president & general manager.  
ZVI SHOUBIN, program director.  
HARLEN McFADDEN, general sales manager.  
WILLIAM PERRY BROWN JR., promotion manager.

## Knock on WOOD!

If you have product to move in Western Michigan, take a tip from the country's leading advertisers and knock on WOOD-TV. Because:

**News.** WOOD-TV is built on a solid news foundation that delivers a 59½% metro area share from 6:00-6:30 p.m., another 59% in the 11:00-11:30 p.m. slot.\* Our staff of 14 crack newsmen is supplemented by the worldwide facilities of both NBC and Time-Life.

**Color.** Much more color — 98% during evening hours, plus local slide and film facilities.

**Movies.** Top-flight motion picture packages, most in color.

**Audience.** Willy Wood has over 2,000,000 faithful viewers, just waiting to be sold.

Conclusion: if you have product to move in Western Michigan, just knock on WOOD-TV. Your Katz man has all the details and avails.

# WILX-TV is the Mid-Michigan Market

(smack dab in the middle of the mitten)

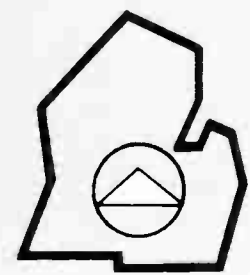

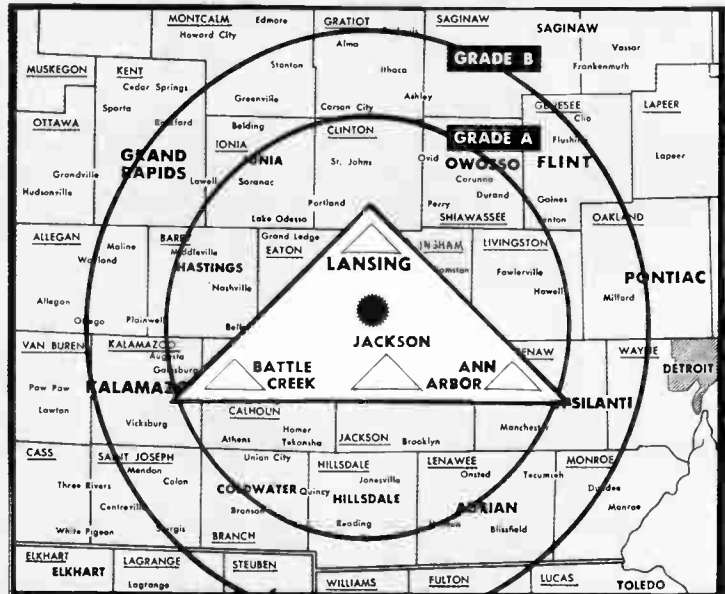

WILX-TV is your Mid-Michigan TV buy for four good reasons:

1. More efficient distribution of circulation.
2. Dominates the southern half circulation (Lansing and south).
3. Puts more advertising pressure where it's needed most.
4. Gets you more complete coverage with less overlap.

Add it all up and you have **MAXIMUM** homes with **MINIMUM** duplication.

If you have clients that like extra merchandising, ask about our spectacular 40,000 circulation billboard in downtown Lansing.

Call Young Television Corp., or, write to Lansing 23, Michigan.

## WOR-TV

Licensee: RKO General Inc., 1440 Broadway (10018).

Telephone: 212-564-8000. TWX No.: 212-640-5160.

Ownership: RKO General Inc. (operated by RKO General Broadcasting, a division of RKO General Inc.). Hathaway Watson, pres.; Robert J. Leder, exec. v.p.; Sam J. Slate, v.p. in charge of govt. & industry relations; Jerome Bess, v.p. in charge of operations. RKO General Broadcasting operates Yankee Network (with WNAC, Boston). It also operates WNAC-TV, Boston; KHJ-TV, Los Angeles (KHJ-AM-FM); WHBQ-TV, Memphis, Tenn. (WHBQ); radio stations WGMS & FM, Washington, D.C.; KFRC & FM, San Francisco and WRKO- FM, Boston. Canadian subsidiary owns CKLW-TV, Windsor-Detroit (CKLW).

Began Operation: Oct. 5, 1949. In Jan. 1952, R. H. Macy Co. merged ownership with Thomas S. Lee Enterprises Inc., now RKO General—Macy Co. retaining 10%; in Dec. 1955, Macy Co. sold its interest to General Tire & Rubber Co., latter setting up parent holding firm, RKO General Inc., for both broadcasting and RKO Radio Pictures (Television Digest, Vol. 7:41, 46; 8:3, 11:48, 51).

Represented (sales) by WOR-TV Sales, 1440 Broadway, N. Y. and RKO General Inc. (Chicago, Los Angeles, San Francisco).

Represented (legal) by Pierson, Ball & Dowd (Washington); Regan, Goldfarb, Powell & Quinn (New York).

### Personnel:

ROBERT SMITH, v.p. & station manager.  
 JACQUES BIRABEN, v.p., director of sales.  
 MICHAEL RENAULT, sales manager.  
 ROBERT B. BEUSSE, v.p. & dir. of govt., industry & community relations.  
 JOHN L. KOUSHOURIS, program manager.  
 KENNETH COWAN, director of information.  
 HERB SALTZMAN, merchandising manager.  
 JAMES SPILLOTIS, research director.  
 HERBERT MAYES, WOR div. controller.  
 JOHN P. SHANLEY, public relations director.  
 GEORGE BROWN, news & special events director.  
 THOMAS REYNOLDS, traffic manager.  
 ORVILLE SATHER, director of engineering.

## WCCB-TV

Network Service: Per-program affiliation agreement with ABC, CBS & NBC.

Licensee: Mecklenburg Television Broadcasters Inc., 1 Television Place, Charlotte, N.C. (28205).

Studio: 1 Television Place.

Telephone: 704-372-1800.

Ownership: Cy N. Bahakel, 100%. Also owns WKAB-TV, Montgomery, Ala.; WABG-TV, Greenwood, Miss.; WOLO-TV, Columbia, S.C.; radio stations WABG, Greenwood, Miss.; WLBJ & FM, Bowling Green, Ky.; WWOD & FM, Lynchburg, Va.; KXEL & FM, Waterloo, Ia.; WKIN, Kingsport, Tenn.; WDOJ & FM, Chattanooga, Tenn. Also is Ch. 14 applicant for Waterloo, Ia.

Began Operation: Dec. 7, 1953. Sale to present owner, who changed call letters from WUTV and resumed operation Nov. 1, 1964, was approved Aug. 20, 1964 by FCC (Television Digest, Vol. 4:26, 35). Previous owner Century Advertising Co. took station off air May 16, 1963 after it had been in service since Sept. 5, 1961, following transfer of control of Century approved May 3, 1961 by FCC (Vol. 17:10). While in off-air CP status Hugh A. Deadwyler turned over station to Century Advertising, of which he was part owner (1957, Vol. 13:7). Hugh Deadwyler acquired station as WAYS-TV from G. W. Dowdy and associates for token \$4 in Dec. 1954, then took it off air March 15, 1955 (1955 Vol. 11:12).

Represented (sales) by Adam Young Inc.

Personnel:

CY N. BAHAKEL, president.  
LEW SADLER, manager.  
EDWARD BRINCEFIELD, production mgr. & v.p., engineering.  
DON E. KASSNER, technical director.  
GUY TITMAN, chief engineer.  
SUSAN ROSS, office manager.

# Nobody ever calls Lillian Aldrich.

Mention television ratings to Lillian Aldrich and there's a good chance you will get the standard lament, "Nobody ever calls me." And although the American Research Bureau does call hundreds of thousands of people every year, we don't call everybody.

*We don't have to. Fortunately.*

Effective sampling allows researchers to reliably and economically provide audience estimates on a large group of people using a relatively small group as a base. Though the size of this base is important, it's the way in which it is selected that counts so much.

So if we take a hard-nose, no-tears approach to Lillian's sad lament, just remember—we didn't invent sampling. We do, however, dedicate ourselves to making it work as effectively as possible for you.
